

NEW NOVAK ACCESSORIES

For Immediate Release, February 2, 2012

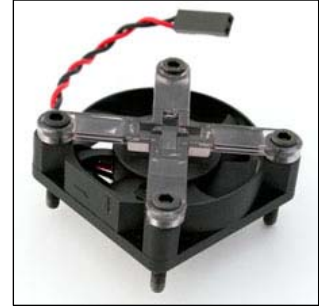

#5664 Cooling Fan with Guard: 40x40x10

#5115-5117 5mm Mod 1 Steel Pinion Gear-21T/22T/23T

#5124 Mod 1 5mm Steel Pinion Gear 3-Pack (21/22/23)

#5664 Cooling Fan with Guard: 40x40x10mm

Product Description: Novak's **Cooling Fan with Guard: 40x40x10mm** provides additional airflow to R/C electronics for improved performance. This is the same fan that is included in the **Novak Activ8 Racing ESC (#1725)**, and can be used with any other ESC, motor, or electronics that accepts a 40x40mm fan. To provide additional protection, an "X"-shaped, durable, plastic guard is included with four, socket-head cap screws. The cooling fan features a factory-installed, two-pin JST plug that easily plugs into the Novak Activ8 or any ESC that includes fan output pins that accept a two-pin JST connector. Operates from 5 to 7.2 volts.

SPECIFICATIONS: #5664	
Size	40x40x10mm
Input Voltage	5.0-7.2 volts DC
Airflow	5.7 CFM @ 5 VDC
Color	Black

#5115 5mm Mod 1 Steel Pinion Gear-21T

#5116 5mm Mod 1 Steel Pinion Gear-22T

#5117 5mm Mod 1 Steel Pinion Gear-23T

Product Description: Novak's Mod 1 Pinion Gears (#5115 / 21T, #5116 / 22T, #5117 / 23T) feature a high-strength hardened steel construction and are precision machined. These gears are compatible with Novak's Ballistic 8, Ballistic 550, and other motors with a 5mm output shaft. Each gear includes a set screw.

#5124 Mod 1 5mm Steel Pinion Gear 3-Pack (21/22/23)

Product Description: This is Novak's **5mm Mod 1 Steel Pinion Gear 3-Pack (21T/22T/23T)**. These hardened gears are available in packs of three gears, allowing drivers to experiment with gear ratios. These are the same high-quality gears offered individually, but in a money-saving combo pack!

Novak's Mod 1 Pinion Gears feature a high-strength hardened steel construction and are precision machined. These gears are compatible with Novak's Ballistic 8, Ballistic 550, and other motors with a 5mm output shaft. Each gear includes a set screw.
