- #70122 Black Rear Bumper for the Assoc. SC10 2wd**  
UPC #672415701225
- #70125 Blue Rear Bumper for the Assoc. SC10 2wd**  
UPC #672415701256
- #70152 Mud Flap and Number Plate Kit (*RPM* SC10 2wd rear bumpers only)**  
UPC #672415701522

The **RPM** Rear Bumper for the Associated SC10 2wd has been extended further rearward by almost ½” over stock bumpers, moving it into the primary impact point out back, thereby reducing the likelihood of a rear impact damaging the body. We also raised the top of our bumper to help protect the body when the truck flips over in a crash. Additionally, **RPM** SC10 2wd rear bumpers have removable mud flap mounts so mud flaps (sold separately) may be run on or off without having to modify the bumper.

Every full sized short course truck racing today has a rear number plate (a feature not yet found on any current R/C short course vehicle) so it was only natural that the **RPM** SC10 2wd Rear Bumper should have that option as well (number decals not included).

Our rear bumper also has mounting points for an **RPM #81030** Tail Light set (sold separately). With a set of light canisters on an **RPM** SC10 2wd front bumper and a set of **RPM** tail lights out back, the fun doesn't have to stop when the sun sets!

**RPM** SC10 2wd Rear Bumpers and our Mud Flap and Number Plate Kit are manufactured in our extremely tough blend of proprietary materials and are backed by our industry-leading warranty. Each kit comes with all necessary mounting hardware and instructions.
